RESCUE4E

Many solutions in one single machine.
Versatile, safe and easy to use – for any emergency situation.

The multifunctional unit **RESCUE4E** stems from our desire to package 4 fundamental instruments ready for fast action in a single machine: generator, tower light, self-priming pump and air compressor- all mounted on a trailer and sound-proofed. Rugged and ready to be mobilized wherever the emergency or natural disaster strikes! **RESCUE4E** is

synonymous with flexibility and is an ideal partner in all critical situations. It is available in seven standard sizes from 10 to 60 kVA, with Gorman-Rupp self-priming electric pumps from 95 to 300m³/h and tower light with metallic halides, LED or halogen lamps. **RESCUE4E** can be highly customized to meet all your needs.
